

We are pleased to announce that FRIENDS Live 2025 will be held in conjunction with the 35th Annual Meeting of the Japanese Society of Cardiovascular Imaging and Dynamics.

## Next Chapter: A New World Created by Imaging × Physiology

Through numerous challenges, we aim to spark new chemical reactions and imagine and create a world yet unseen. This spirit will be carried on to the next generation at the new FRIENDS Live. Your support is greatly appreciated!

### Special Guests Announced!

- Dr. Rasha Al-Lamee from ORBITA study (Lancet2018) and ORBITA II study (NEJM2023)
- Dr. Jung-Min Ahn for the PREVENT study (Lancet2024)
- Dr. Joo Myung Lee of the RENOVATE-COMPLEX-PCI Study (NEJM2023)

### Get a Sneak Peek at the Program!

Many sessions are scheduled from the basics to understand coronary circulation and coronary artery imaging to the latest topics and evidence.

The following is a partial list of the sessions. Here are some of them.

#### **Basic-1: Basics of Coronary Physiology: To become a PCI expert operator / an expert staff**

1. Coronary Circulation Basics: Coronary Flow Reserve (CFR) and Fractional Flow Reserve (FFR)
2. Principles and applications of Non-Hyperemic Pressure Ratios (NHPR)
3. All about Functional Coronary Angiography: from FFR-CT to angio-based FFR

#### **Advance-1: Fundamentals of Coronary Function: To become a Physiology Expert**

1. Abnormal coronary microvascular dilatation function and its evaluation
2. Abnormal coronary microvascular contraction and its evaluation
3. Structural abnormalities of coronary microvessels and their evaluation methods

### Call for General Abstracts

FRIENDS Live 2025 / The 35th Annual Meeting of the Japanese Society of Cardiovascular Imaging and Dynamics is now accepting general abstracts. We encourage you to submit your work and contribute to this exciting event.
